EDUCATION

CodeBoxx Academy

AI Native Agentic Full Stack Development Program · 2026

UCF

University of Central Florida
B.S.B.A. Finance · 2015-2019

Berlin School of Economics

Business Study Abroad · 2018

PROFILE

Cybersecurity and compliance professional with experience in IT audit and financial regulatory environments, excelling at building security frameworks, risk assessment, and modern development practices.

Currently expanding technical skills through the CodeBoxx AI Native Agentic Full Stack Development Program, focusing on JavaScript, full-stack development, and practical application within modern development environments.

EXPERIENCE

Agentic Full Stack Developer (Student)

[CodeBoxx Academy](#) · 2026 – Present

- ▶ Business-simulation-style program modeled after a real software agency environment
- ▶ Building MERN stack projects with emphasis on AI-native and agentic development practices
- ▶ Agile-style sprints, Git/GitHub version control, and simulated stakeholder presentations

Associate IT Auditor

[360 Advanced](#) · April 2024 – February 2026

- ▶ Led SOC 1, SOC 2, PCI, and HITRUST engagements from scoping through final deliverables
- ▶ Managed concurrent audits while maintaining documentation quality and leadership communication
- ▶ Built trusted client relationships on-site and remotely; mentored and onboarded new team members

Concierge Security Engineer

[Arctic Wolf Networks](#) · April 2023 – February 2024

- ▶ Primary point-of-contact for managed awareness clients through onboarding and product adoption
- ▶ Coordinated cross-functional support; translated complex security concepts for non-technical stakeholders

Compliance Associate

[Raymond James Financial](#) · April 2020 – April 2023

- ▶ Mediated non-sales practice complaints and ensured advisor alignment with FINRA regulations
- ▶ Documented regulatory issues for audit trails; advised branch advisors on compliance practices

Fee-Based Senior Associate

[Raymond James Financial](#) · April 2019 – April 2020

- ▶ Managed high-volume money movements with precision, consistently meeting performance metrics
- ▶ Delivered top-tier service and technical troubleshooting for internal financial advisors
